# Elephant Cuisine

Use this elephant to visualize your team's intent to accomplish that BIG thing, then:

1. Name your Elephant (initiative) ensuring everyone understands the end goal.
2. Divide the elephant into parts that represent large activities that must be accomplished. Write them on and around the elephant.
3. Circle 1 to 2 large activities that are priorities and must be accomplished first.
4. Break the activities into smaller tasks, noting team members who will take leadership to ensure they are accomplished by the timeline.
5. Work through the remaining activities in a similar way, coming back again and again to feast upon your Elephant because how do we eat an elephant?

Exactly, one bite at a time!
